

Harel's StateCharts offer wonderful insights into

- diagrammatic programming
- isolation (encapsulation) of state
- isolation of control flow.

My slide deck and voice-over from a presentation¹ is here:

[https://computingsimplicity.neocities.org/
Statecharts%20presentation%202020.pdf](https://computingsimplicity.neocities.org/Statecharts%20presentation%202020.pdf)
<https://soundcloud.com/user-408358553/statechartsaudio>

and, my annotations for every diagram in the paper are here:
